

## (T)Hat's a Miracle!

a class with Martien van Zuilen  
(Australia)  
[www.martienvanzuilen.com](http://www.martienvanzuilen.com)

Learn how to make strong, multilayered and colourful felt; then learn how to transform your felt into many hats. Include fabrics and novelty fibres into your felt for intentionally placed highlights. Experiment with the potential of double-sided designs and the unlimited possibilities of shape and form.

Ability level: Suitable for all levels of experience

Length of presentation: This workshop can be offered as a 1 or 2 day workshop

Materials: Requirement list will be provided. Some materials will be provided by Martien

Additional Materials fee: \$5 per student

Maximum number of students: 12

Physical set-up: tables, chairs, access to running (warm) water

Martien with a Miracle Hat which was shown at the international felt exhibition at US Convergence 1996.
